MONTHLY PROGRESS REPORT OF REGIONAL, CENTRAL, GENERAL AND REFERRAL HOSPITALS

- MPR I -

Year:

Month:

I. IDENTIFICATION OF THE HEALTH FACILITY

Region:	Division:	Subdivision:	
Health District:	Health Area:		
Name of Health Facility:			
Status: Public <input type="checkbox"/>	Public Related <input type="checkbox"/>	Parapublic <input type="checkbox"/>	Denominational private <input type="checkbox"/>
Lay private non-profit making <input type="checkbox"/>	Private profit making <input type="checkbox"/>		
Telephone number of the Health Facility:			
Email:			
Location (Town/Village/neighbourhood):			
Data entry date into DHIS2:	____ / ____ / ____		
Name of data manager:			
Telephone number of data manager:			
Name of Head of Health Facility			
<i>Stamp of Health Facility</i>	<i>Signature of the Head of the Health Facility</i>		

II. REPRODUCTIVE, MATERNAL, NEWBORN AND CHILD HEALTH (RMNCH)

II.1 MATERNAL HEALTH

II.1.1 ANTE NATAL CONSULTATIONS	10-14 yrs	15-19 rsYrs	> 19 rsyrsrs
1. Number of pregnant women below 15 years received during the month			
2. Number of pregnant women received for ANCI (1 st contact) during the month			
3. Number of pregnant women who attended their first ANC before 16 weeks			
4. Number of pregnant women received for ANC 4 and above during the month			
5. Number of pregnant women who received the first IPT dose			
6. Number of pregnant women who received the third IPT dose (complete IPT)			
7. Number of pregnant women who received at least two doses of Tetanus vaccine during the current pregnancy consulted during the month			
8. Number of women who received the 1 st dose of Tetanus vaccine during the month			
9. Number of women who received the 2 nd dose of Tetanus vaccine during the month			
10. Number of women who received the 3 rd dose of Tetanus vaccine during the month			
11. Number of women who received the 4 th dose of Tetanus vaccine during the month			
12. Number of women who received the 5 th dose of Tetanus vaccine during the month			
13. Number of women who received the 1 st dose of Tetanus Diphtheria vaccine during the month			
14. Number of women who received the 2 nd dose of Tetanus Diphtheria vaccine during the month			
15. Total number of women received for ANC during the month and whose blood pressure was measured			
16. Total number of women received for ANC who did the syphilis test			
17. Number of diagnosed syphilis cases in pregnant women in ANC during the month			
18. Number of treated syphilis cases in pregnant women in ANC during the month			
19. Number of pregnant women screened for Hepatitis B during the month			
20. Number of pregnant women who tested positive to Hepatitis B during the month			

II.1.2 DELIVERIES , EMERGENCY, OBSTETRIC AND NEONATAL CARE	10-14 yrs	15-19 yrs	> 19 yrs
21. Total number of deliveries in the facility during the month			
22. Total number of deliveries recorded in the community during the month			
23. Number of women who benefited AMTSL during the month			
24. Number of deliveries with obstetrical complications:			
Number of cases of haemorrhage			
Number of cases of prolonged labour/dystocia			

Number of pre-eclampsia/eclampsia cases			
Number of cases of uterine ruptures			
Number of cases of puerperal infection			
25. Number of Caesarean sections performed			
26. Number of obstetrical complication cases managed or referred during the month			
27. Number of complicated abortion cases recorded in the health facility during the month			
28. Number of maternal deaths recorded in the health facility during the month			
29. Number of maternal deaths recorded in the community during the month			
30. Number of maternal deaths audited during the month			
27. Number of abortion-related deaths recorded during the month			
28. Number of women who initiated a family planning method in immediate post-partum during the month			

II.1.3 POST NATAL CONSULTATION	10-14 yrs	15-19 yrs	> 19 yrs
29. Number of women who initiated a family planning method during the post-partum period during the month			
30. Number of women who delivered and spent less than 48 hours in the health facility during the month			
31. Number of couples (women and newborns) who received at least one postnatal consultation within 48 hr following delivery			
32. Number of couples (mother and newborn) who received a postnatal consultation between the 6 th and the 10 th day following delivery			
33. Number of women who received Vitamin A during post-partum during the month			

II.1.4 BIRTHS	M	F
34. Number of live births recorded in the health facility during the month		
32. Total number of births recorded in the community during the month		
35. Number of birth declarations forwarded at the civil status centre during the month		
36. Number of premature live births recorded during the month		
37. Number of premature or low weight babies (less than 2500 g) administered Kangaroo care		
38. Number of new cases of sick infants received during the month (fever, jaundice, refusal to breastfeed, lethargy ...)		
39. Number of cases of birth asphyxia		
40. Number of cases of birth asphyxia resuscitation (with a mask and a balloon)		

41. Number of recorded live births below 2500 g	
42. Number of stillbirths recorded in the health facility	
43. Number of neonatal deaths that occurred during the first 24 hours	
44. Number of neonatal deaths (0 to 28 days) recorded in the HF during the month	

II.1.5 FAMILY PLANNING		
45. Number of new users (additional clients)		
Number of users who chose one of the following contraceptive methods during the month	New	Old
<i>Progesterone-only pill</i>		
<i>Oestrogen-Progesterone pill</i>		
<i>Morning-after pill</i>		
<i>Intramuscular Injections (Depo provera, ...)</i>		
<i>Subcutaneous Injections (Sayana Press)</i>		
<i>Implants</i>		
<i>IUD</i>		
<i>VSC: Voluntary Surgical Contraception (tubal ligation, vasectomy, ...)</i>		
<i>Male condoms</i>		
<i>Female condoms</i>		
<i>Natural method</i>		

II.2 SCREENING AND MANAGEMENT OF GENESIC CANCERS AND OBSTETRIC FISTULAS	
46. Number of women aged between 30 to 49 years screened for cervical cancer	
47. Number of breast cancer cases suspected	
48. Number of breast cancer cases confirmed	
49. Number of breast cancer cases managed	
50. Number of breast cancer cases referred	
51. Number of cervical cancer cases suspected	
52. Number of cervical cancer cases confirmed	
53. Number of cervical cancer cases managed	
54. Number of cervical cancer cases referred	
55. Number of obstetrical fistula cases screened	
56. Number of obstetrical fistula cases managed	
57. Number of obstetrical fistula cases screened and referred	
58. Number of prostate cancer cases screened	
59. Number of prostate cancer cases managed	
60. Number of prostate cancer cases referred	

II.3 PREVENTION OF MOTHER-TO-CHILD TRANSMISSION OF HIV	
61. Number of pregnant women who did their first HIV test during the current pregnancy during the month	
62. Number of pregnant women who collected their HIV test results during the month	
63. Number of pregnant women who did their first HIV test and tested positive during the month	
64. Number of pregnant women known to be HIV-positive during their first ANC visit	
65. Number of pregnant women who tested negative during their first ANC visit, who were retested for HIV during the second, third, or fourth ANC during the month	
66. Number of pregnant women who tested negative during their first ANC visit, who were retested for HIV and were diagnosed HIV-positive during the second, third, or fourth ANC during the month	
67. Number of male partners of pregnant women received during the month who were screened for HIV	
68. Number of male partners of pregnant women received during the month who tested HIV positive	
69. Number of HIV-positive pregnant women who received Co-trimoxazole prophylaxis during the month	
70. Number of HIV-positive pregnant women who initiated ARV triple therapy on site during the month	
71. Number of HIV-positive pregnant women already on triple therapy during their first ANC visit during the month	
72. Number of HIV-positive pregnant women in whom the search for clinical signs of TB was carried out during the month	
73. Number of pregnant women who did their first HIV test during the current pregnancy in the labour room during the month	
74. Number of pregnant women who did their first HIV test during their pregnancy in the labour room and diagnosed HIV-positive during the month	
75. Number of pregnant women tested negative during ANC who were retested for HIV in the labour room during the month	
76. Number of pregnant women who tested negative during ANC who were retested and diagnosed HIV-positive in the labour room during the month	
77. Number of pregnant women who tested HIV-positive in the labour room and who initiated ART during the month	
78. Number of women who gave birth in the health facility during the month	
79. Number of HIV-positive women who gave birth in the HF during the month	
80. Number of children born to HIV-positive mothers in the HF during the month	
81. Number of children born to HIV-positive mothers who initiated Nevirapine therapy in post partum within 72 hours during the month	
82. Number of HIV-positive women who gave birth out of the health facility and who came with their babies within 72 hours after delivery during the month	
83. Number of women who initiated a family planning method during post-partum during the month	
84. Number of HIV-positive women who initiated a family planning method in post-partum during the month	

II.3 PREVENTION OF MOTHER-TO-CHILD TRANSMISSION OF HIV	
85. Number of children born to HIV-positive mothers received for follow-up consultation between 6 and 10 days after delivery during the month	
86. Number of children born to HIV-positive mothers received for follow-up consultation between 6 and 8 weeks during the month	
87. Number of children born to HIV-positive mothers who initiated Cotrimoxazole from 6 weeks post partum during the month	
88. Number of children born to HIV-positive mothers screened by PCR between 6 and 8 weeks during the month	
89. Number of children born to HIV-positive mothers screened by PCR between 6 and 8 weeks during the month	
90. Number of children born to HIV-positive mothers screened by PCR between 8 weeks and 9 months during the month	
91. Number of children born to HIV-positive mothers diagnosed HIV by PCR between 8 weeks and 9 months during the month	
92. Number of children still on exclusive breastfeeding at 6 months of life during the month	
93. Number of children born to HIV-positive mothers seen at the 9-month visit during the month	
94. Number of children born to HIV-positive mothers seen at the 9 th -month visit who are up-to-date with their vaccinations	
95. Number of children born to HIV-positive mothers diagnosed positive by serology between 9 to 18 months and screened by PCR during the month	
96. Number of children born to HIV-positive mothers diagnosed positive by serology between 9 and 18 months and confirmed positive by PCR during the month	
97. Number of children born to HIV-positive mothers and confirmed HIV infected by PCR and on ART during the month	

III. CHILD HEALTH

III. CHILD AND ADOLESCENT HEALTH

III.1 CHILD IMMUNIZATION (EPI) AND ACTIVITIES/COMMUNICATION FOR IMMUNIZATION	0-11 months Number of sessions		12-59 months Persons sensitized
	Planned	Achieved	
98. Immunization in fixed strategy			
99. Immunization in advanced/mobile strategy			
100. Announcement by a town crier or sensitization with a megaphone			
101. Educational talk in the health facility			
102. Educational talk in the community/ associations			
103. Communication in churches			
104. Communication with traditional healers			
105. Search for the lost to follow up (number to be looked for and number found)			

III.2 IMMUNIZATION OF CHILDREN (EPI)	0-11 months				12-59 months	Refugees
	Fixed		Advanced/mobile			
	M	F	M	F		
106. Number of children who received BCG vaccine						
107. Number of children who received HepBO vaccine						
108. Number of children who received OPV0 vaccine						
109. Number of children who received OPV 1 vaccine						
110. Number of children who received OPV 2 vaccine						
111. Number of children who received OPV 3 vaccine						
112. Number of children who received PVI vaccine						
113. Number of children who received DTP+ HepB1+Hib1 (Penta 1)						
114. Number of children who received DTP+ HepB3+Hib2 (Penta 2)						
115. Number of children who received DTP+ HepB3+Hib3 (Penta 3)						
116. Number of children who received the first dose of the pneumonia vaccine (PCV-13-1)						
117. Number of children who received the second dose of the pneumonia vaccine (PCV-13-2)						
118. Number of children who received the third dose of the pneumonia vaccine (PCV-13-3)						
119. Number of children who received Rota 1						
120. Number of children who received Rota 2						
121. Number of children who received the first dose of measles/rubella vaccine						
122. Number of children who received the second dose of measles/rubella vaccine						
123. Number of children who received the vaccine against yellow fever						
124. Number of children who received MenA vaccin						
125. Number of children who received Vitamin A						
126. Number of children who received one dose mebendazole during the month						

III.3 IMMUNIZATION OF ADOLESCENTS (EPI)	Fix	Advanced/mobile	Refugees
127. Number of girls from 9 to 13 years old who received the first dose of HPV vaccine			
128. Number of girls from 9 to 13 years old who received the second dose HPV vaccine			
129. Number of girls from 9 to 13 years old who received the third dose of HPV vaccine			

III.4 STORAGE OF VACCINES AND WASTE MANAGEMENT

I30. Minimum temperature recorded	
I31. Maximum temperature recorded	
I32. Number of low temperature alarms (number of temperature > +2°C)	
I33. Number of high temperature alarms (number of temperature > +8°C)	
I34. Number of safety boxes used	
I35. Number of safety boxes destroyed	

III.5 SURVEILLANCE OF AEFI (ADVERSE EFFECTS FOLLOWING IMMUNIZATION)

AEFI Type	No.	Antigen	Lot No.	Expiration Date
I36. Fever > 48 hours				
I37. Hives				
I38. Adenopathies				
I39. Abscess				
I40. Anaphylactic shock				
I41. Others (list them)				

III.6 INTEGRATED MANAGEMENT OF CHILDHOOD ILLNESSES

I42. Number of diarrhoea cases recorded in children between 0 to 59 months	
I43. Number of children between 0 to 59 months who received ORS + ZINC therapy (oral rehydration salts and Zinc) against diarrhoea	
I44. Number of children between 0 to 59 months with pneumonia	
I45. Number of children between 0 to 59 months with pneumonia who received an antibiotic treatment	

IV.1.1 COMPREHENSIVE MANAGEMENT OF PLWHIV	< 1 year old			1 - 4 years old			5 -9 years old			10 -14 years old			15 -19 years old			20-24 years old			25-49 years old			>50 years old			TOTAL		
	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T
157. Number of PLWHIV who did the viral load test 12 months before the initiation of the treatment during the month																											
158. Number of PLWHIV on ART with a viral load suppression 12 months after the initiation of the treatment during the month																											
159. Number of PLWHIV still on treatment 12 months after the initiation during the month.																											
160. Number of reported PLWHIV who died during the month																											
161. Number of PLWHIV who did not collect their treatment during the month																											
162. Number of PLWHIV absent during the previous month who were found and their treatment reinitiated																											
163. Occasional aids (PLWHIV not followed up by ATC/MU but who came to collect their treatment during the month)																											
164. Number of blood exposure accidents (BEA) cases who received an ART																											
165. Number of old PLWHIV on ART who came to collect their treatment during the month																											
166. Number of old PLWHIV on ART who received their treatment during the month																											

IV.1.1 VOLUNTARY TESTING OF HIV/AIDS

		Number of persons counselled during the month	Number of persons tested during the month	Number of persons who collected their results during the month	Number of persons tested HIV positive during the month	Number of persons tested HIV positive and referred to the MU during the month	Number of unspecified results during the month
≤ 9 years	M						
	F						
	Total						
10-14 years	M

IV.1.1 MALARIA CONTROL	< 5years old	≥ 5 years old (excluding PW)	Pregnant women (PW)
167. Number of Long Lasting Insecticide treated nets (LLINs) distributed			
168. Number of suspected uncomplicated malaria cases (clinical uncomplicated malaria)			
169. Number of cases suspected for severe malaria			
170. Number of Rapid Diagnostic Tests (RDT) done by the health staff			
171. Number of positive Rapid Diagnostic Tests (RDT)			
172. Number of thick smear tests done by the health personnel			
173. Number of positive thick smear tests			
174. Number of fever cases suspected to be uncomplicated malaria for which a confirmation test was not done (RDT or thick smear)			
175. Number of fever cases suspected to be severe malaria for which a confirmation test was not done (RDT or thick smear)			
176. Number of uncomplicated malaria cases with positive RDT			
177. Number of uncomplicated malaria cases with a positive thick smear			
178. Number of severe malaria cases with a positive RDT			
179. Number of severe malaria cases with a positive thick smear			
180. Number of hospitalizations for confirmed severe malaria (with RDT or microscopy)			
181. Number of confirmed uncomplicated malaria cases treated by the health staff with ASAQ combination			
182. Number of confirmed uncomplicated malaria cases treated by the health staff with ACTs other than ASAQ			
183. Number of confirmed severe malaria cases treated with injectable artesunate			
184. Number of confirmed severe malaria cases treated with injectable arthemeter			
185. Number of confirmed severe malaria cases treated with injectable quinine			
186. Number of fever cases suspected to be uncomplicated malaria with negative RDT who received antimalarial treatment			
187. Number of uncomplicated malaria cases who received antimalarial treatment without a confirmation test (RDT or thick smear)			
188. Number of people who died of confirmed malaria			

IV.1.2 TB CONTROL	Smear-Positive Pulmonary Tuberculosis (PTB+)			Smear-negative Pulmonary Tuberculosis (PTB-)			Extra-pulmonary Tuberculosis			TOTAL
	0-4 years old	5-14 years old	15 years old and above	0-4 years old	5-14 years old	15 years old and above	0-4 years old	5-14 years old	15 years old and above	
189. Number of suspected and referred cases										
190. Number of TB suspected cases referred to the laboratory for diagnosis										
191. Number of new cases										
192. Number of Relapses cases										
193. 114. Number of retreatment cases										
194. Number of treatment failure										
195. Number of Patients cured/Treatment completed										
196. Number of lost-to-follow-up Patients										
197. Number of referred Patients										
198. Number of TB patients who did the HIV test (with the result recorded in the register)										
199. Number of TB patients tested positive for HIV test										
200. Number of HIV positive TB patients on ARVs										
201. Number of TB patients on Cotrimoxazole										
202. Number of TB patients referred to the laboratory for follow-up										
203. Total number of drug-resistant TB patients										
204. Number of TB related deaths										
205. Number of health staff diagnosed TB+										

IV.2 NON COMMUNICABLE DISEASES CONTROL

Diseases	New Cases	Death	Diseases	New Cases	Death
206. High blood pressure			207. Sickle-cell anaemia		
208. Diabetes			209. Gastric ulcer		
210. Stroke			211. Chronic visual disabilities		
212. Asthma			213. Chronic hearing disorders		
214. Epilepsy			215. Traumas		
216. Road traffic accidents			217. Mental illnesses		
218. Rheumatic diseases			219. Oral diseases		
220. Domestic violence			221. Rape		

IV.3 NEGLECTED TROPICAL DISEASES CONTROL

Diseases	New Cases	Death	Diseases	New Cases	Death
222. Onchocerciasis			223. Intestinal schistosomiasis		
224. Trachoma			225. Urinary schistosomiasis		
226. Leprosy			227. Guinea worm		
228. Buruli Ulcer			229. Yaws		
230. Human African Trypanosomiasis (HAT)			231. Leishmaniasis		
232. Helminthiasis					

IV.4 SURVEILLANCE OF VACCINE-PREVENTABLE DISEASES (VPDs)

		233. Acute flaccid paralysis (AFP)	234. Neonatal tetanus (NNT)	235. Measles	236. Yellow fever
0-28 days	Reported cases				
	Investigated case				
	Death				
1-11 months	Reported cases				
	Investigated case				
	Death				
12-59 months	Reported cases				
	Investigated case				
	Death				
5-15 years old	Reported cases				
	Investigated case				
	Death				

IV.4 SURVEILLANCE OF VACCINE-PREVENTABLE DISEASES (VPDs)		233. Acute flaccid paralysis (AFP)	234. Neonatal tetanus (NNT)	235. Measles	236. Yellow fever
15 years old and more	Reported cases				
	Investigated case				
	Death				
Immunization status	Vaccinated				
	Non-vaccinated				
	Unknown				

IV.5 SURVEILLANCE OF EPIDEMIC-PRONE DISEASES AND OTHER PUBLIC HEALTH EVENTS					
Diseases	New Cases	Death	Diseases	New Cases	Death
237. Meningitis			238. Varicella		
239. Cholera			240. Genital ulcer (non vesicular)		
241. Typhoid Fever			242. Plague		
243. Bloody diarrhoea 1			244. Rabies		
245. Dracunculiasis			246. SARS (Atypical pneumopathy)		
247. Viral haemorrhagic fevers ²			248. Flu syndrome		
249. Viral Hepatitis B			250. Dengue		
251. Viral Hepatitis C			252. Smallpox		
253. Acute gastroenteritis			254. Urethral discharge		
255. Lymphatic filariasis			256. Dog bite		
257. Anthrax			258. Snake bite		
259. Chikungunya			260. Other envenomizations		

¹ Shigellosis; campylobacter; yersinia

² Ebola, Marburg, Rift valley, Lassa, Congo crimea

IV.6 INTEGRATED MANAGEMENT OF ACUTE MALNUTRITION (IMAM)

NOTE: Table to be completed only by HF's with the status of Ambulatory Nutritional Centre (ANC)

Age group	Total at the beginning of the month	New Admissions			RE-ADMISSION after Abandon (< 2 months)	INTERNAL TRANSFER (from ITNC or another ANC)	Total of CNAS Admissions	Transfer INTERNAL TRANSFER (to ITNC or ANC)	Output				Total Discharged	Total at the end of the month
		C/G < -3 z-score or MUAC < 115 mm or MUAC < 180 mm	CEDEMA	RELAPSE					HEALED	ABANDONED	DECEASED	NON RESPONDENT

V.I BLOOD TRANSFUSION			
269. Number of blood bags taken/collected		270. Number of blood bags transfused	
271. Number of blood bags tested according to standards ³		272. Number of blood bags served	
273. Number of blood bags tested for HIV		274. Number of voluntary/unpaid donors	
275. Number of HIV positive blood bags		276. Number of regular blood donors	
277. Number of family blood donors		278. Number of blood bags destroyed	
279. Number of blood donors tested for viral hepatitis B (HBV)		280. Number of blood donors tested positive for viral hepatitis B (HBV)	
281. Number of blood donors tested for syphilis		282. Number of blood donors tested positive for syphilis	
283. Number of blood donors tested for HIV		284. Number of blood donors tested positive for HIV	
285. Number of co-infected HIV/HBV blood donors		286. Number of HIV positive blood donors referred to an MU	
287. Number of mobile collections carried out during the month		288. Number of blood bags collected in fixed stations	
289. Number of blood bags collected in mobile units			

³ HIV, Hepatitis, Syphilis

VI. TRACER DRUGS

	Tracer drugs	Stock at the beginning of the month	Amount received during the month	Amount consumed	Temporary/occasional help/ redeployment	Loss	Physical stock available during the month	Number of stock out days	Amount expiring ⁴
1.	Nevirapine syrup								
2.	NVP 200 mg + 3TC 150 mg + AZT 300 mg orally								
3.	Efv 600 mg + 3tc 150 mg + tdf 300 mg orally								
4.	Artesunate injectable								
5.	Arthemeter injectable								
6.	Artesunate+amodiaquine 100mg/270mg tablet								
7.	Artesunate+amodiaquine (25mg/62.5mg or 50mg/135mg) tablet								
8.	Sulfadoxine pyrimethamine 500mg /25 mg orally								
9.	Arthemeter + lumefantrine 20/120 mg								
10.	Iron syrup								
11.	Folic acid + iron (25mg + 66 mg) tablet								
12.	Paracetamol 500 mg orally								
13.	Paracetamol 120 mg/5ml syrup bottle 100 mg								
14.	Paracetamol 100 mg orally								
15.	Tdr malaria								
16.	LLIN								
17.	Oral rehydration salt + Zinc Oxide								
18.	Doxycycline 100mg tablet								
19.	Ringer lactate solute 500 cc								
20.	Metronidazole 250 mg tablet								
21.	Metronidazole 125 mg/5ml syrup								
22.	Cotrimoxazole 480 mg tablet								
23.	Cotrimoxazole 240 mg/5 ml, oral solution								
24.	Amoxicillin 500 mg orally								

⁴ Expiry date less than 3 months.

25.	Amoxicillin 250 mg/5ml syrup bottle 60 ml								
26.	Ceftriaxone 1g, injection ampoule								
27.	Glibenclamide 5mg orally								
28.	Mebendazole 100 mg/5 ml syrup								
29.	Aluminium hydroxide 500 mg								
30.	Omeprazole 20mg orally								
31.	Iodised polyvidone 10%								
32.	Oxytocin 10 ui/ml, injectable								
33.	Dexamethasone 04 mg injectable								
34.	anti-tetanus serum								
35.	Antivenin serum								
36.	Diazepam								
37.	magnesium sulfate 1.5 g/10 ml injectable								
38.	Atropine 0.25 mg tablet								
39.	Fentanyl 100 mg, tablet								
40.	Furosemide 20 mg, injectable								
41.	Ibuprofen 400 mg tablet								
42.	Rifampicine + INH+Pyrazinamide + Ethambutol								
43.	Mixtard human insulin, 100 UI/10ml injectable								
44.	<i>Progesterone-only pill</i>								
45.	<i>Oestrogen-Progesterone pill</i>								
46.	<i>Morning-after pill</i>								
47.	<i>Intramuscular Injections (Depo provera, ...)</i>								
48.	<i>Subcutaneous Injections (Sayana Press)</i>								
49.	<i>Implants</i>								
50.	<i>IUD</i>								
51.	<i>Male condoms</i>								
52.	<i>Female condoms</i>								

VII. EPI INPUTS	Stock in the health facility (doses)	Stock lost (dose)	Stock used	Number of
------------------------	---	--------------------------	-------------------	------------------

	Stock at the beginning of the month	Stock received during the month	Remaining stock at the end of the month	VVM changes colour	Frozen	expired/ Others	(dose of open bottle)	stock out days
B.C.G.								
OPV								
Hep B								
DTC-HepB +Hib (Penta)								
PNEUMO (PCV 13)								
Rota								
VPI								
RR
